

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Assistant Commissioner for Patents
Washington, D.D. 20231
ATTENTION LICENSING AND REVIEW

Declaration of Jürgen Klinghardt

I, Jürgen Klinghardt, do hereby declare as follows:

1. I am a patent attorney with the German firm of Eisenführ, Speiser & Partner, Martinistrasse 24, 28195 Bremen, GERMANY.

2. Our firm received a letter from Ms. Linda L. Palomar of Trexler, Bushnell, Giangiorgi, Blackstone & Marr, Ltd., dated December 10, 2001, which instructed our firm to file a German patent application which claimed priority from United States Provisional Patent Application Serial No. 60/259,947 and a formal patent application based thereon, which had yet to be assigned a Serial Number. The letter stated that the application should be filed in Germany before January 5, 2002. The letter further stated to delay filing of the patent application until we were notified that the foreign filing license had been granted. A copy of this letter is attached as Exhibit 1.

3. Our firm received a letter from Ms. Palomar, dated January 2, 2002, which instructed our firm to file the German patent application on January 4, 2002 as Ms. Palomar stated that the Foreign Filing License should be granted by that date. A copy of this letter is attached as Exhibit 2.

4. On January 3, 2002, our firm sent a letter to Ms. Palomar indicating safe receipt of our her letters dated December 10, 2001 and January 2, 2002 and confirming that a German patent application would be filed before January 5, 2002. A copy of this letter is attached as Exhibit 3.

5. On January 23, 2002, our firm sent a letter to Ms. Palomar indicating that the German application was filed with the German Patent Office on December 28, 2001 and was assigned Serial No. 101 64 376.4. A copy of this letter is attached as Exhibit 4.

6. Our firm received a letter from Mr. James A. O'Malley of Trexler, Bushnell, Giangiorgi, Blackstone & Marr, Ltd., dated February 7, 2002, which expressed confusion over the filing date of the German patent application as it was requested the German application be filed on January 4, 2002, but the application was in actuality filed on December 28, 2001. A copy of this letter is attached as Exhibit 5.

7. Our firm received a reminder letter from Mr. O'Malley, dated February 13, 2002, regarding the confusion of the filing date of the German patent application. A copy of this letter is attached as Exhibit 6.

8. On February 14, 2002, I called Mr. O'Malley to discuss the confusion of the filing date of the German patent application. During our phone call, I explained that one of the younger members of our firm, who I was the supervisor for, had prematurely filed the German patent application on December 28, 2001 (six (6) days prior to the granting of the foreign filing license), rather than waiting to file the German patent application until receiving the explicit instructions to do so, as instructed in Ms. Palomar's letter dated December 10, 2001, which is provided as Exhibit 1.

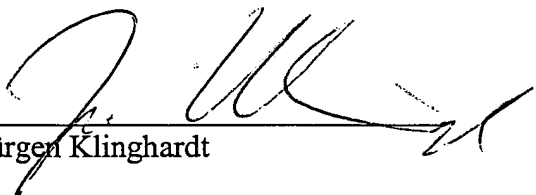

9. The younger member of our firm who prematurely filed the German patent application on December 28, 2001 is no longer with our firm and, thus, I, as the younger member's supervisor, and having direct knowledge of the surrounding events, am attesting hereto.

10. The German patent application was filed abroad through error and without deceptive intent without the required license under §5.11 first having been obtained.

11. I further declare that all statements made herein of my own personal knowledge are true and that all statements made on information and belief are believed to be true and further that these statements were with knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the above-referenced application or any patent issuing thereon.

Date 16 May 2002

Re: Proposed German Patent Application
CLAIMING PRIORITY OF
United States Provisional Patent Application
Serial Nos. 60/259,947; and formal
Patent Application Serial No. (Not yet available)
For: "HYDRAULIC PUNCH DRIVER"
Our Ref: Greenlee Case 283-Germany (913/39742)

Dear Sirs:

We enclose herewith material to file a Patent Application in Germany ***before January 5, 2002***. Full particulars concerning the Applicant, etc., are set forth on the attached sheet of particulars. We will advise you of the *serial number of the formal patent application filed on November 13, 2001 as soon as it is available to us*.

Enclosed please find the following:

- 1) Specification 16 pages
- 2) Claims six pages 22 claims
- 3) Abstract one page
- 4) A copy of the informal drawings-
six sheets, 6 FIGS.

We will forward under separate cover the Certified Copies of the United States Provisional and formal applications and the formal drawings.

TREXLER, BUSHNELL, GIANGIORGI, BLACKSTONE & MARR, LTD.

Re: Proposed German Patent Application
CLAIMING PRIORITY OF
United States Provisional Patent Application
Serial No. 60/258,947; and formal
Patent Application Serial No. (unknown)
For: **"HYDRAULIC PUNCH DRIVER"**
Our Ref.: Greenlee Case 283-Germany (913/39742)

Dear Sirs:

Further to our letter dated December 10, 2001, please proceed with filing the above-identified patent application on January 4, 2002. The foreign filing license for this application should be granted by January 4, 2002 (but even if it is not granted, you are to file on January 4, 2002).

Please note that the formal United States patent application has not yet been assigned a Serial Number. We will forward this information to you once we receive it from the United States Patent and Trademark Office. If the Serial Number is necessary for the filing of the German patent application, please base the priority only on the United States provisional patent application Serial No. 60/258,947.

Kindly acknowledge safe receipt of these instructions by return facsimile.

Please advise if you need anything further from us to comply with the filing requirements.

New German patent application
Hydraulic punch driver

Dear Ms. Palomar,

We confirm safe receipt of your letters dated December 10, 2001 and January 2, 2002 and confirm that the German patent application will be filed before January 5, 2002.

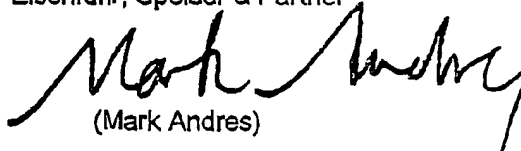

As regards the priority data of the United States provisional patent application please advise, whether the serial number 60/259,947 or 60/258,947 is correct. We have noted that the data provided in your two above referenced letters differs.

The serial number of the formal US application can be submitted to the German Patent and Trademark Office later. Please provide this serial number at your earliest convenience.

We will keep you informed on the further development of this filing.

Very truly yours,

Eisenführ, Speiser & Partner

In the name of Greenlee Textron Inc.
Your Ref.: G 588 SAS/hs
Our Ref.: Greenlee Case 283-Germany (913/39742)

Dear Sirs:

Thank you for your letter dated 23 January 2002 regarding the above-identified German patent application. There is, however, some confusion as to the filing date of the German patent application.

In our letter to you dated 10 December 2001, we requested that you file the application before January 5, 2002, but that you do not file the application until we notify you that the Foreign Filing License was granted. Then, in our letter dated 2 January 2002 we requested that you file the application on 4 January 2002. In response to our two letters, you confirmed in a letter dated 3 January 2002 that the application would be filed before 5 January 2002.

Thus, based on the correspondence described above, we do not understand why your letter dated 23 January 2002 states that the filing date for the German patent application is 28 December 2001, as the application should have been filed on 4 January 2002. Please explain.

Sincerely,

TREXLER, BUSHNELL, GIANGIORGI,
